More Scoops Per Tin Means Fewer Tins Per Prescription

Resource® ThickenUp® Clear tin size is updating on the GP prescribing systems from February 2025. The 127g tin will be discontinued and replaced with a 215g tin, which will have a new PIP code.

Old Case Amount	Old PIP code	127g Tin Price	NEW Case Amount	NEW PIP code	215g Tin Price
Resource® ThickenUp® Clear 12 x 127g	355-4433	£9.02	Resource® ThickenUp® Clear 6 x 215g	433-7291	£15.27

1 scoop = 1.2g. For food, add Resource® ThickenUp® Clear as needed to achieve the appropriate consistency. *For level 4 extremely thick liquids, evaluated IDDSI compliant based on spoon tilt test. It is the responsibility of the person administering Resource® ThickenUp® Clear to ensure that the liquid or food is mixed to the appropriate consistency. ‡ New 215g Resource® ThickenUp® Clear tin.

The tables above help determine the amount of Resource® ThickenUp® Clear required to thicken drinks for a patient during a given period. Fluid intake and individual patients' consistency requirements should be determined by a healthcare professional. It is essential that recommended consistency requirements are followed.
